

UNDERSTANDING MONEY

Grade 3

UNDERSTANDING A.M. AND P.M.

A.M.: Times from midnight to noon.
P.M.: Times from noon to midnight.

Examples:

- 8:00 A.M. – Morning activities like waking up.
- 8:00 P.M. – Evening activities like dinner.

READING DIGITAL CLOCKS

02:30

- Format: Displays time in hours and minutes (e.g., 2:30).
- Understanding: The number before the colon is the hour; the number after is the minutes.

UNITS OF TIME

Can you match up the correct time conversions?

1 minute

1 week

1 hour

1 year

1 day

1 year

365 days

7 days

60 seconds

60 minutes

52 weeks

24 hours

UNITS OF TIME

Can you match up the correct time conversions?

1 minute

60 seconds

1 week

7 days

1 hour

60 minutes

1 year

52 weeks

1 day

24 hours

1 year

365 days

CONVERT 5 MINUTES INTO SECONDS

1 minute = 60 seconds

5 minutes = 300 seconds

60 s

60 s

60 s

60 s

60 s

CONVERT 2 MINUTES AND 30 SECONDS INTO SECONDS

1 minute = 60 seconds

2 minutes and 30 seconds = 150 seconds

60 s

60 s

30 s

CONVERT 1 HOUR AND 24 MINUTES INTO MINUTES

1 hour = 60 minutes

1 hour and 24 minutes = 84 minutes

60 minutes

24 minutes

PRACTICE QUESTIONS

Can you find the equivalent times?

1.

3 minutes and 14 seconds = seconds

2.

2 hours and 48 minutes = minutes

3.

5 weeks and 4 days = days

PRACTICE QUESTIONS

Can you find the equivalent times?

1. 3 minutes and 14 seconds = 194 seconds

2. 2 hours and 48 minutes = 168 minutes

3. 5 weeks and 4 days = 39 days

ANSWER KEY

There are two common ways to tell time:

12-hour Time Format

24-hour Time Format

Knowing both formats is important because:

- They are used in different places (like schools, airports, hospitals)
- They help us avoid confusion when reading schedules or digital clocks

12-hour Time Format

The 12-hour time format divides a 24-hour day into two equal cycles or periods.

AM

ante meridiem
(before midday)

PM

post meridiem
(after midday)

14:30

24-hour Time Format

In the 24-hour time format the day is not divided into 2 parts and it's continuous period of hours.

We indicate 12 midnight as zero hour.

00:00

It is known as the International Standard Time Format.

12-hour and 24-hour Clock

Midnight

00:00

03:00

06:00

09:00

12:00

15:00

18:00

21:00

PM

Activity

Compare and contrast 12- and 24-hour time format using Venn diagram. Place the words below into the appropriate sections of the diagram.

International Standard Format

two equal periods in a day

post meridiem

1 period in a day

used to indicate time

way to communicate time

military time

ante meridiem

The top of the page features a light yellow background with several white, fluffy clouds. Scattered around the clouds are small orange and purple stars. A dark blue rectangular banner with a torn edge, filled with yellow stars, is positioned above the title.

Converting 12–and 24–hour Time and Vice Versa

The bottom of the page is decorated with stylized blue waves. The waves are drawn with thick black outlines and spiral patterns. Small yellow stars are scattered throughout the waves.

Converting 12-Hour Time to 24-Hour Time Format

If the time is between 12:00 AM and 12:59 AM, change the hour to 00 and remove the “AM”.

Example:

12:30AM → 00:30H

If the time is between 1:00 AM to 12:59 PM, the hours and minutes remain the same and then remove the “AM” / “PM”.

Example:

7:15AM → 07:15H

If the time is between 1:00 PM and 11:59 PM, add 12 to the hour. Then, remove the “PM”.

Example:

4:50PM → 16:50H

Activity

Convert 12- and 24-hour Time and Vice Versa.

A. 12-hour to 24-hour

1. 2:15 AM - _____

2. 6:45 PM - _____

3. 12:24 AM - _____

4. 7:15 AM - _____

5. 3:32 PM - _____

B. 24-hour to 12-hour

1. 00:27 H - _____

2. 8:15 H - _____

3. 16:30 H - _____

4. 21:05 H - _____

5. 9:45 H - _____

Solving Word Problems Involving 12– and 24–Hour Time

Problem No. 2

Kenneth needs to catch a train scheduled for 16:30 H. What is his departure time in a 12-hour format?

Problem No. 3

Theon's job interview is set for 2:15 PM. What time is his interview in a 24-hour time format?

THANK
YOU
