

UNDERSTANDING NUMS

Grade 3

WHAT IS PLACE VALUE ?

Place value helps us understand the value of each digit in a number.

1	3	4	6	5	2	8
MILLIONS	HUNDRED THOUSANDS	TEN THOUSANDS	THOUSANDS	HUNDREDS	TENS	ONES

PLACE VALUE VOCABULARY

DIGIT A symbol that represents a whole number.

3

VALUE The amount each digit is worth.

3000

THOUSANDS

3

HUNDREDS

4

ONES

1

,

***NOW, LET'S DELVE DEEPER
INTO THE REPRESENTATION
OF NUMBERS.***

UNDERSTANDING STANDARD FORM

When whole numbers are written using the digits 0 to 9, they are referred to as being in standard form. In this form, the value of each digit is determined by its position.

THOUSANDS	HUNDREDS	TENS	ONES
3	4	6	1

Standard Form 3,461

EXPLORING PLACE VALUE BLOCKS

Base ten blocks are a useful tool for representing numbers visually.

THOUSANDS

3

HUNDREDS

4

TENS

ONES

1

UNDERSTANDING WORD FORM

Word form refers to the written representation of numbers using words, rather than numerals.

THOUSANDS

3

HUNDREDS

4

TENS

6

ONES

1

Word Form Three thousand, four hundred sixty-one

UNDERSTANDING EXPANDED FORM

Expanded form is a method of representing a number by adding the place values of its digits.

THOUSANDS	HUNDREDS	TENS	ONES
3	4	6	1

EXPANED FORM $3000 + 400 + 60 + 1$

PLACE VALUE TABLE

THOUSANDS	HUNDREDS	TENS	ONES
4	5	6	7

Use the number in the top right corner to fill out the place value table and accurately represent numerical values.

STANDARD FORM

EXPANDED FORM

BASE TEN BLOCKS

PLACE VALUE TABLE

THOUSANDS	HUNDREDS	TENS	ONES
2	3	1	2

Use the number in the top right corner to fill out the place value table and accurately represent numerical values.

STANDARD FORM

2,312

WORD FORM

Two thousand, three hundred
twelve.

EXPANDED FORM

$2000 + 300 + 10 + 2$

BASE TEN BLOCKS

ANSWER

Expanded
Form

Expanded Form

Another name for expanded form is
expanded notation.

Expanded Form

To write a number in expanded form, we need to know the value of each digit.

Expanded Form

To write a number in expanded form, we need to know the value of each digit.

Expanded Form

Let's practice with the number 123.

The value of the 1 is 1 hundred, which is 100.

Expanded Form

The value of the 2 is 2 tens, which is 20.

The value of the 3 is 3 ones, which is 3.

Expanded Form

Write those values as a sum:

$$100 + 20 + 3$$

Expanded Form

So 123 in expanded form is:

$$100 + 20 + 3$$

EXPANDED NOTATION

347

The diagram illustrates the expanded notation of the number 347 using place value disks. It is organized into three columns representing hundreds, tens, and ones. The hundreds column contains three disks, each labeled '100'. The tens column contains four disks, each labeled '10', with one disk positioned above the other three. The ones column contains seven disks, each labeled '1', with one disk positioned above a row of three, and another row of three disks below that. Below the disks, the equation $(3 \times 100) + (4 \times 10) + (7 \times 1)$ is written.

$$(3 \times 100) + (4 \times 10) + (7 \times 1)$$

represents each digit
multiplied by its place value.

Expanded Form

Time to practice! Write the numbers on the following slides in expanded form.

estimation

GRADE 3

what is estimation?

An estimation is a rough calculation of something.

For example:

If we spent \$4.80 at the supermarket, we could say we spent about \$5.

rounding

ROUNDING is a great tool to help us estimate.

ROUNDING makes numbers easy to use in calculations but is less accurate.

Rounding

to the nearest ten

1. Find the number on the number line.
2. Determine the two boundary numbers.
3. Round to the number which is the closest.

Rounding

to the nearest hundred

1. Find the number on the number line.
2. Determine the two boundary numbers.
3. Round to the number which is the closest.

tips for rounding

4 or less rounds DOWN

5 or more rounds UP

QUIZ TIME

**let's try a few
other
questions...**

question 1.

A farmer estimates that there are 290 cows and 525 goats in a particular pasture. What is the total livestock population in the pasture? Choose the better estimate.

- A) 750 animals
- B) 1,000 animals
- C) 800 animals

question 2.

An ecologist believes that there are 4,256 oak trees and 8,975 pine trees in a designated forest area. What is the total tree population in the forest? Choose the better estimate.

- A) 14,000 trees
- B) 12,000 trees
- C) 13,000 trees

question 3.

A group of students were asked to choose Maths or Science as their favourite subject. Out of 240 students, 190 chose Maths, and 50 chose Science. Choose the best estimate.

- A) Maths: 70%, Science: 30%
- B) Maths: 80%, Science: 20%
- C) Maths: 60%, Science: 40%

1.

C
