

MEASUREMENT

Grade 1

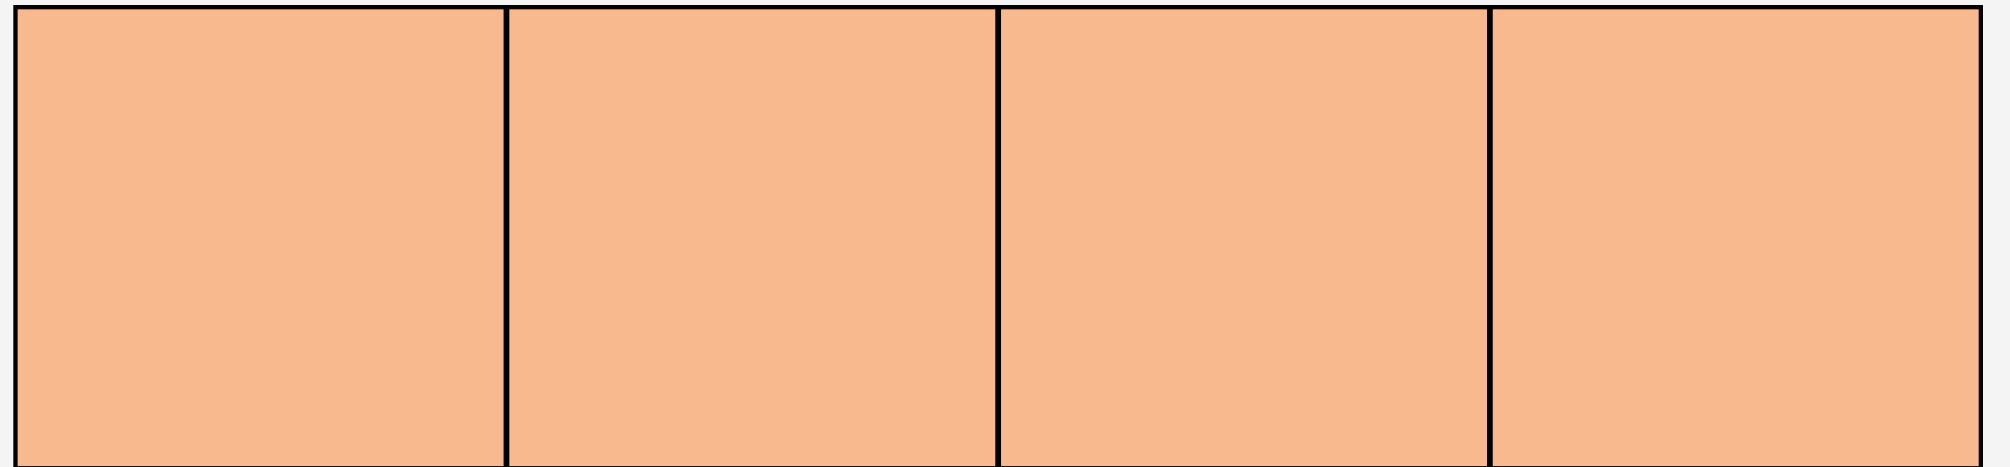

**How tall is
the giraffe?**

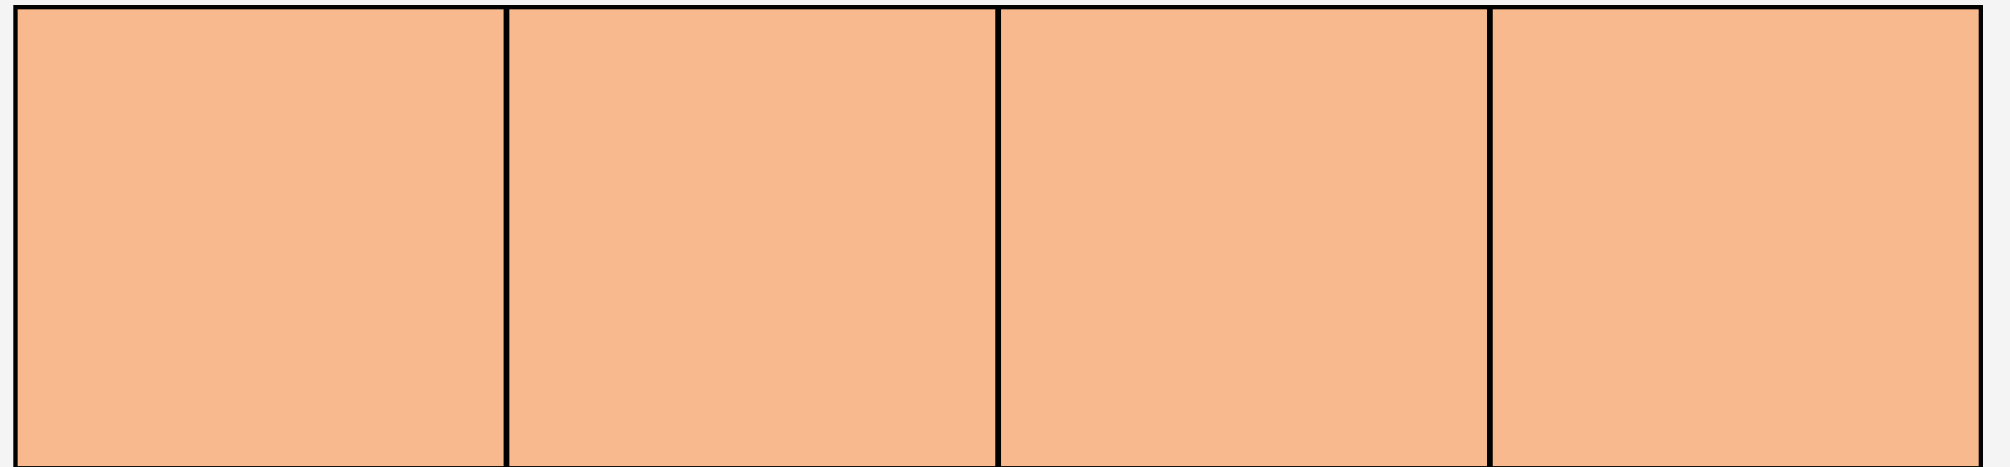

**The giraffe
is 5 blocks
tall.**

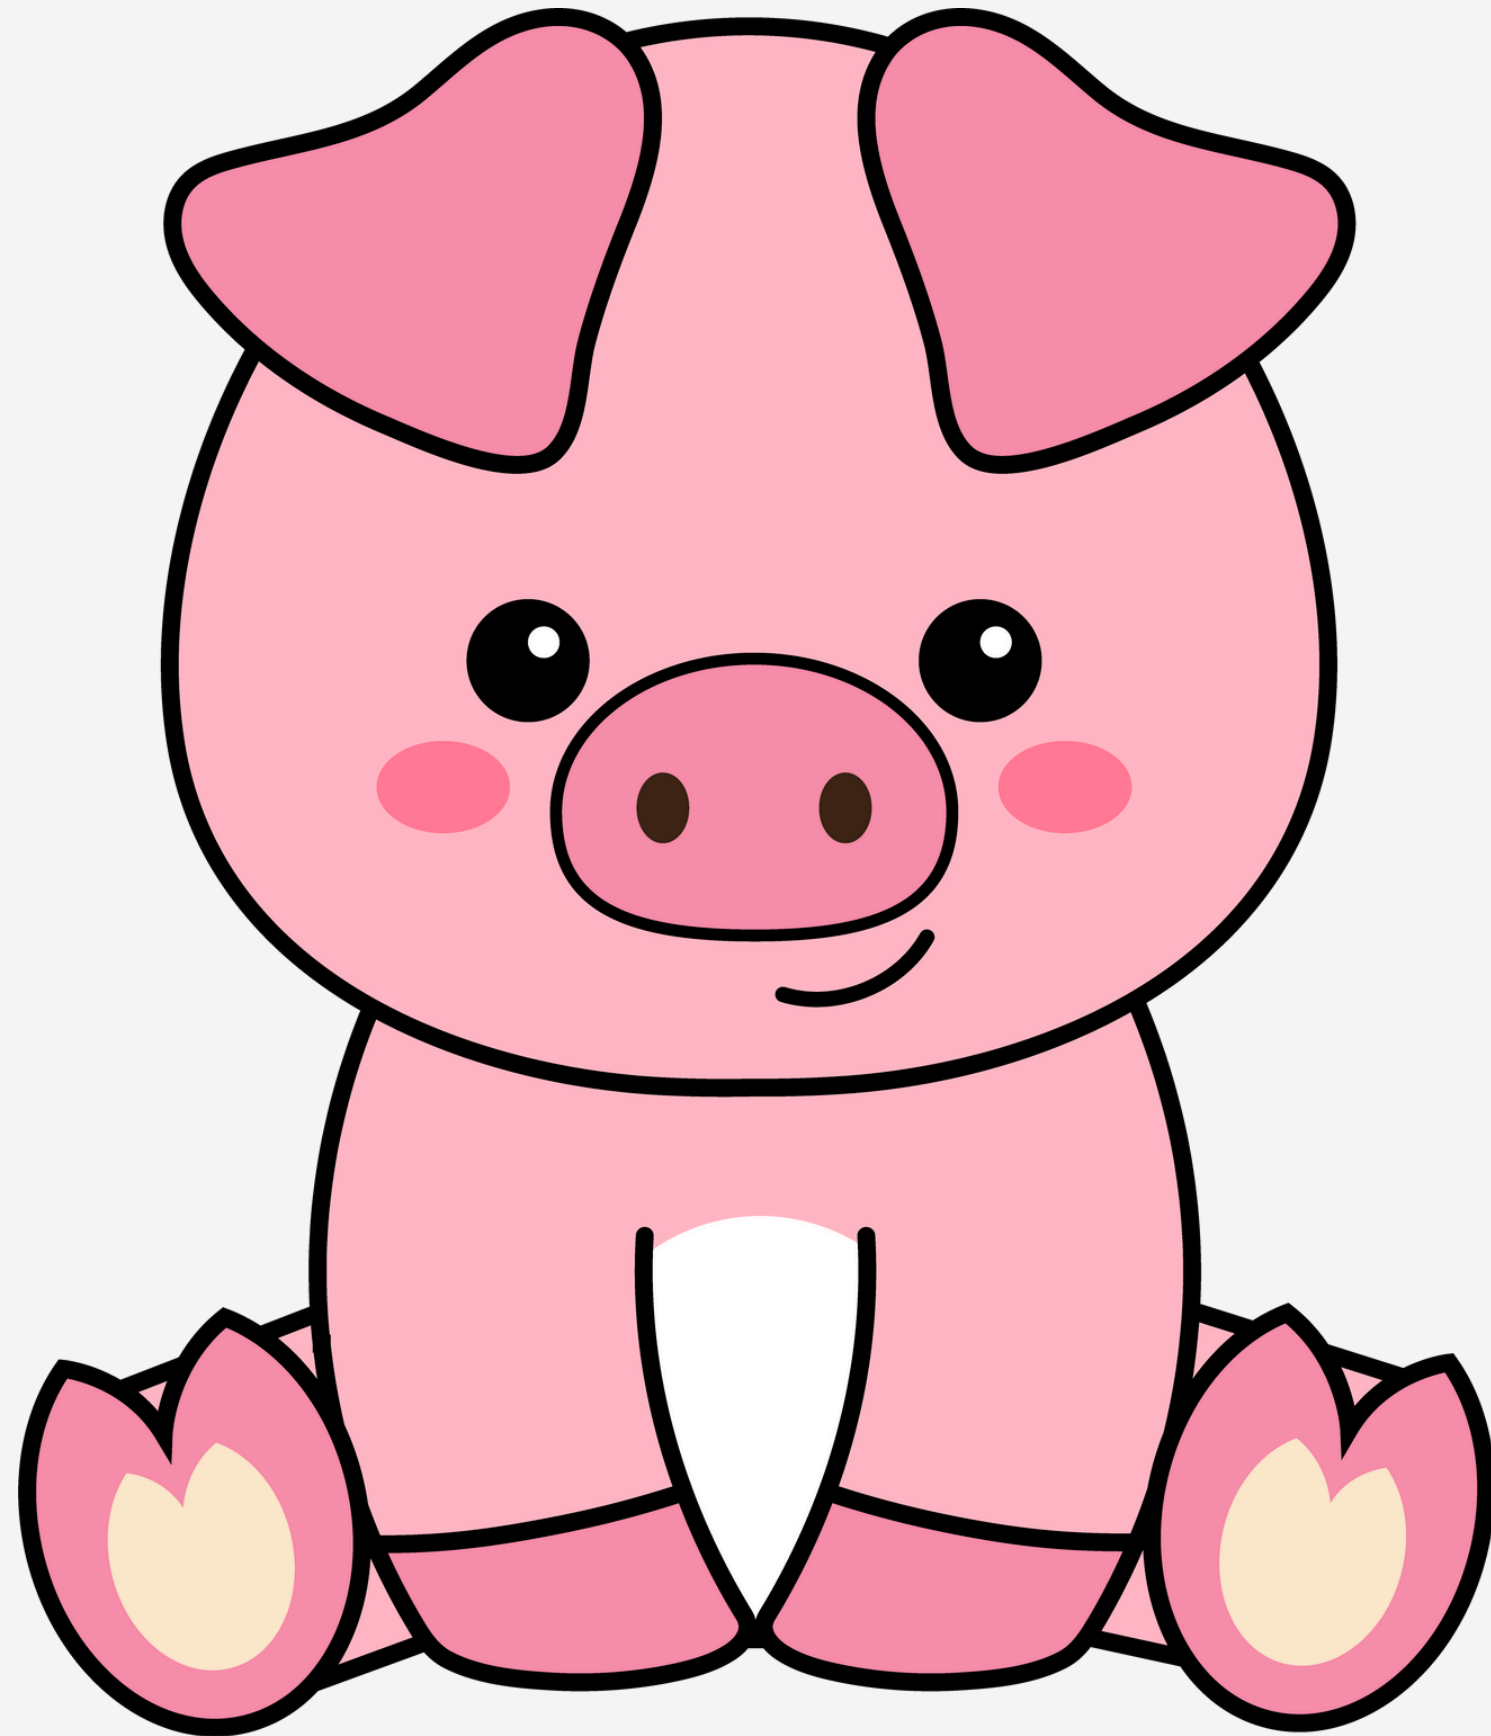

**How wide is
the bear?**

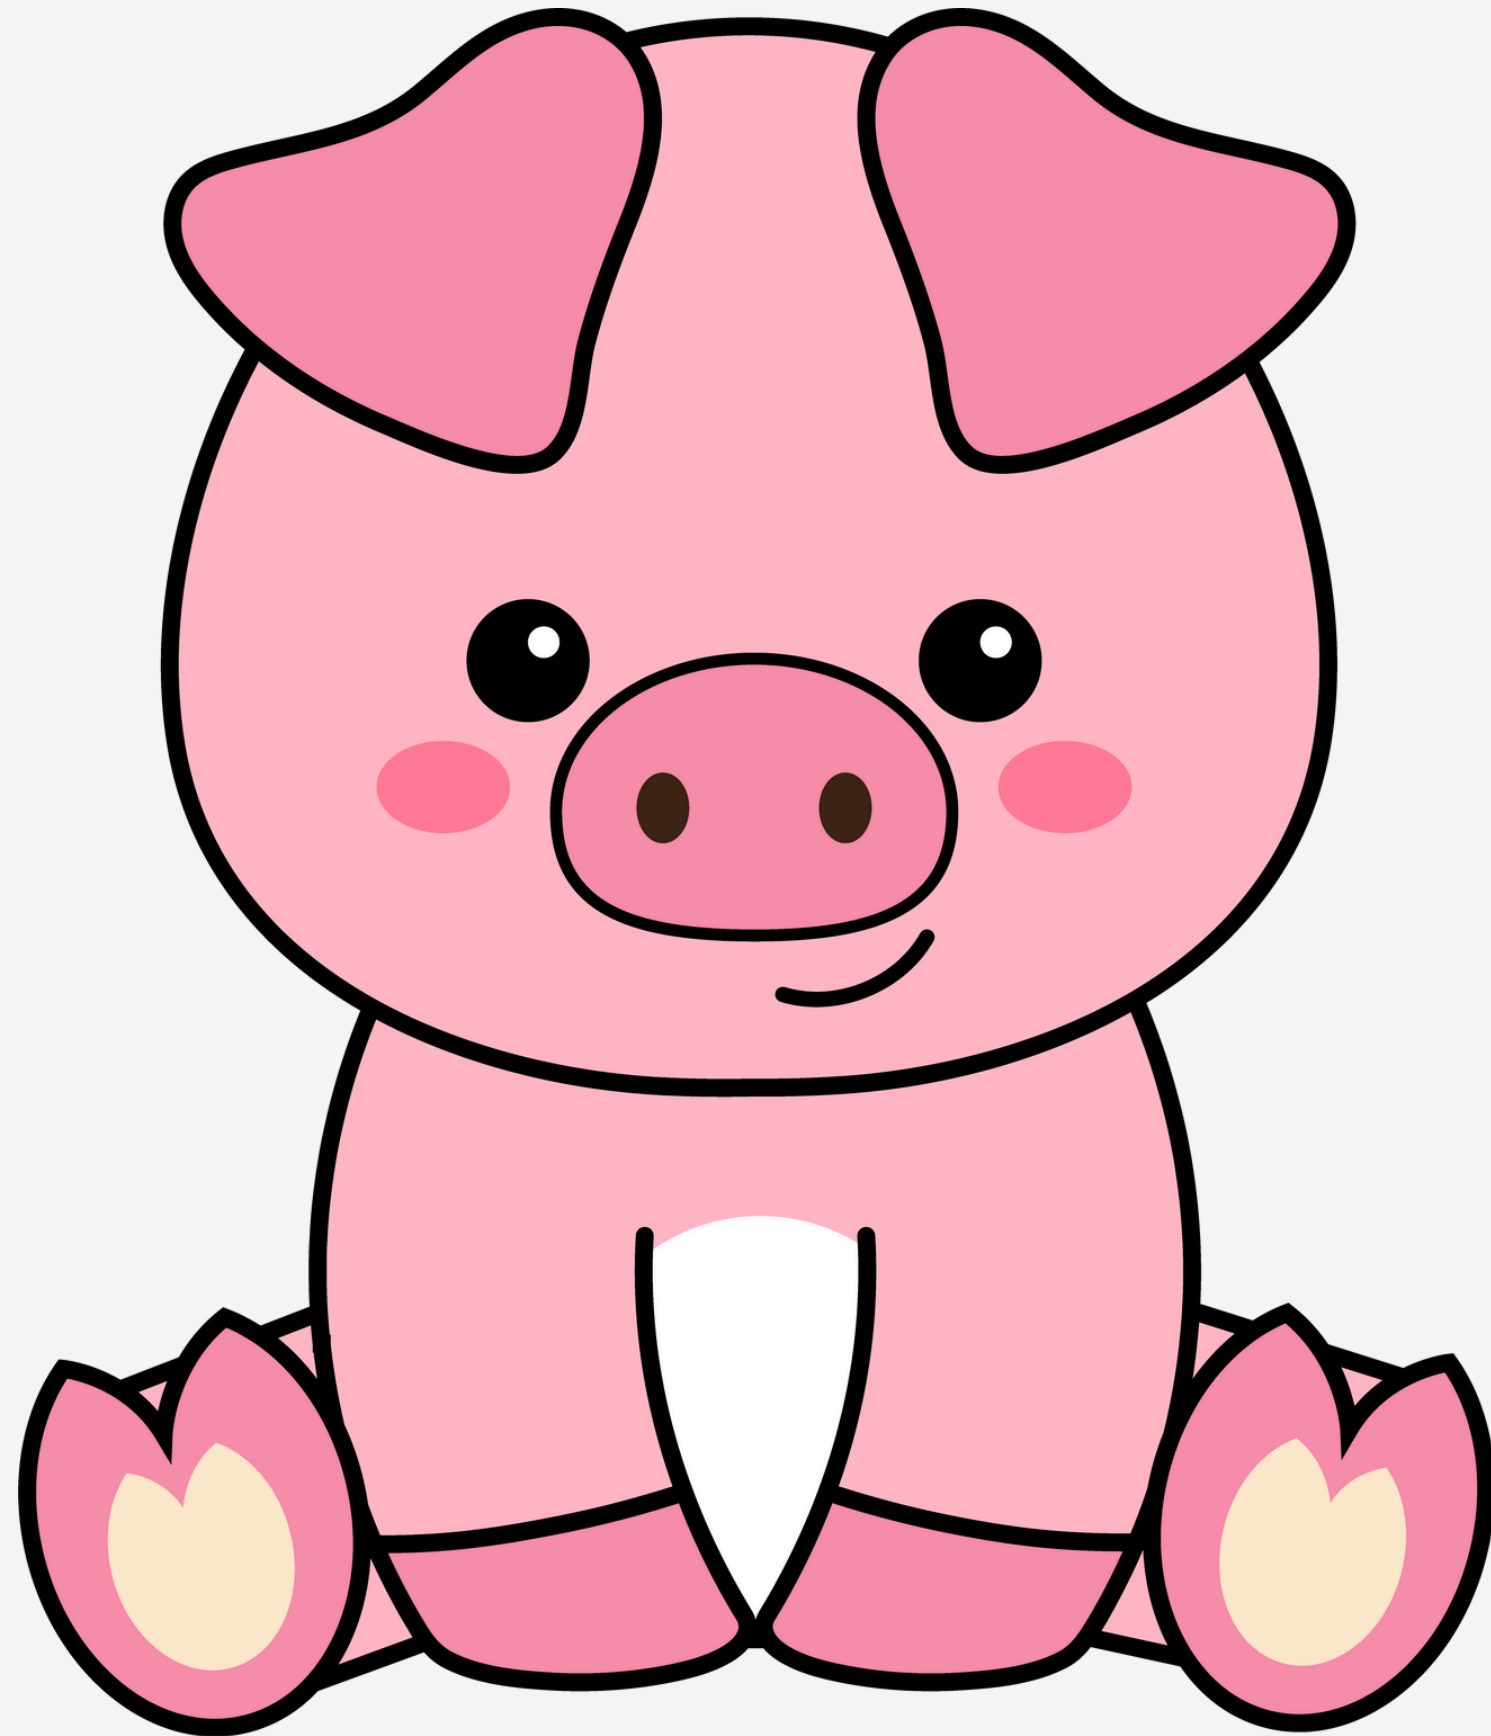

**The bear is 2
blocks wide.**

**How tall
is the pig?**

**The pig is
4 blocks
tall.**

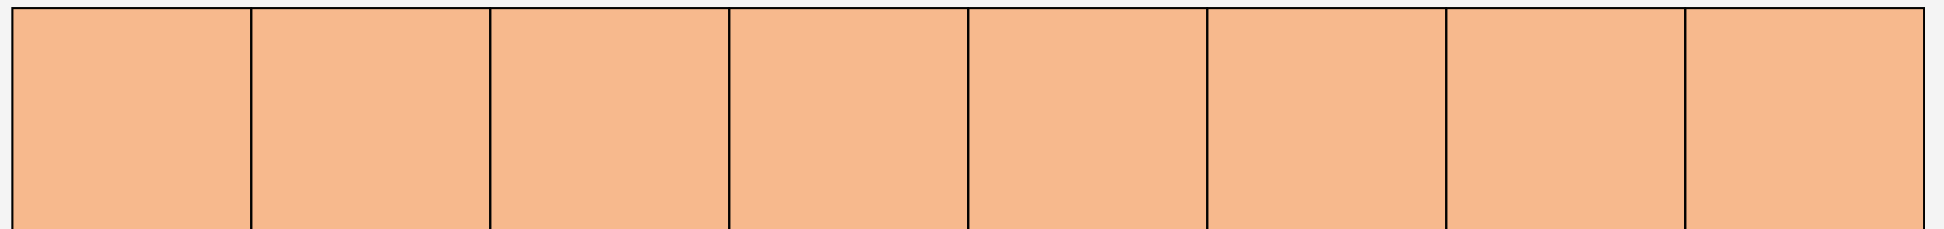

**How tall is
the zebra?**

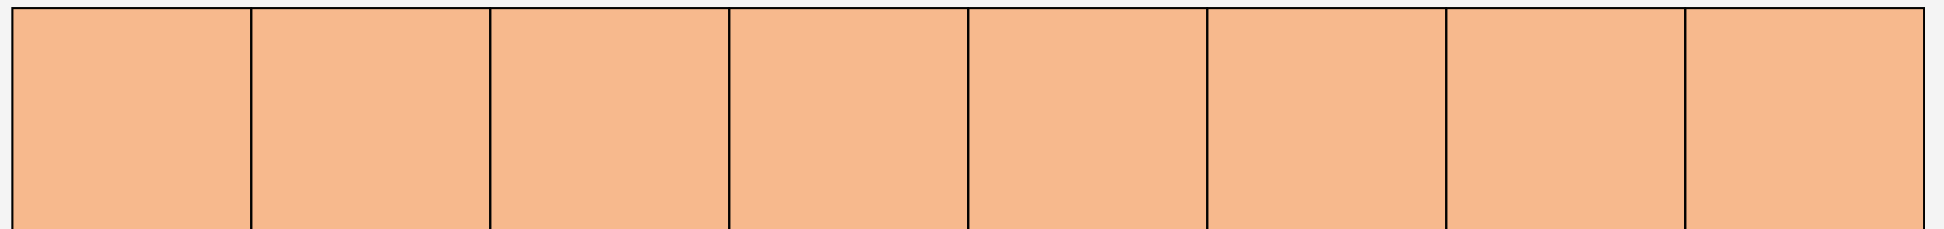

**The zebra is
6 blocks
tall.**

**How wide is
the lion?**

**The lion is 5
blocks wide.**

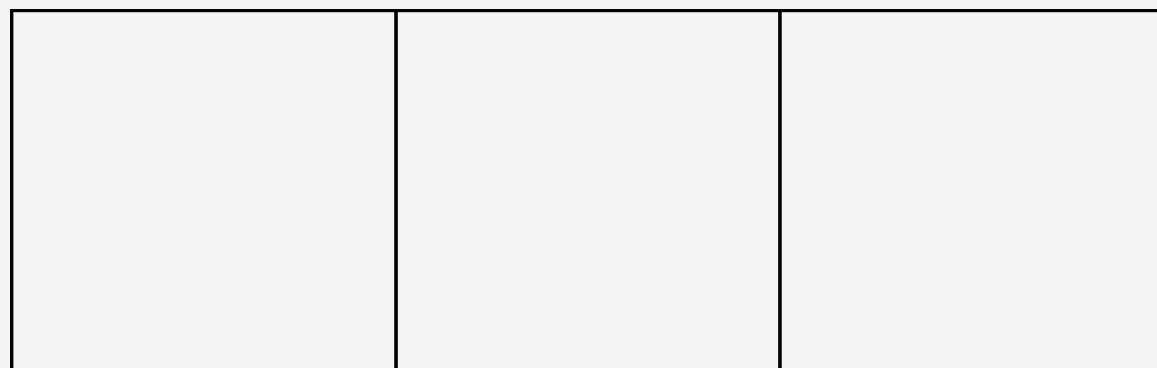

**How wide is
the panda?**

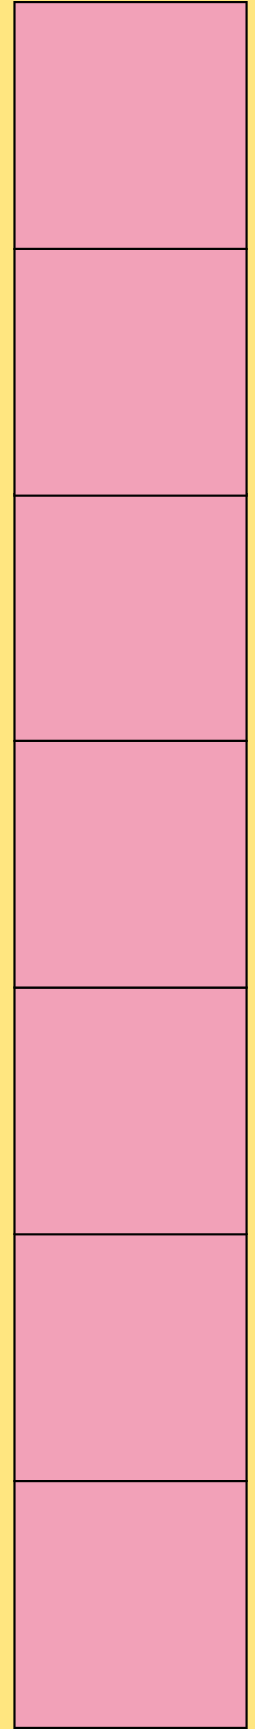

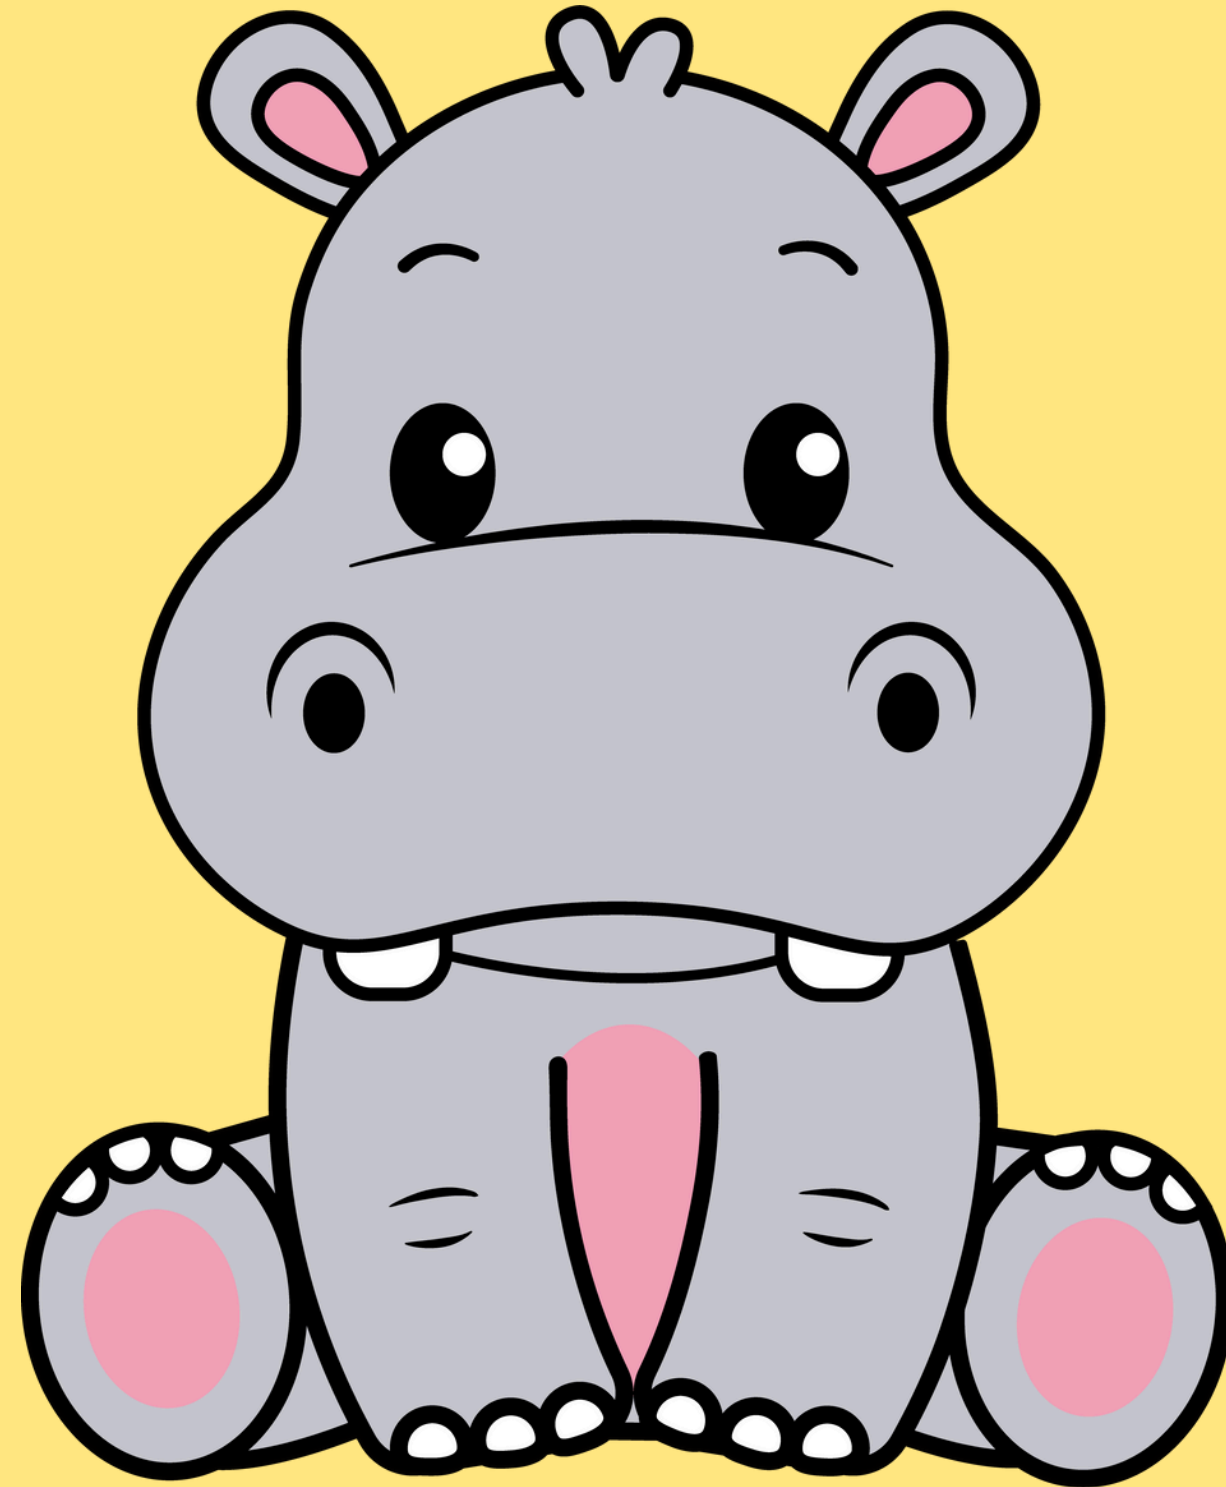

--	--	--

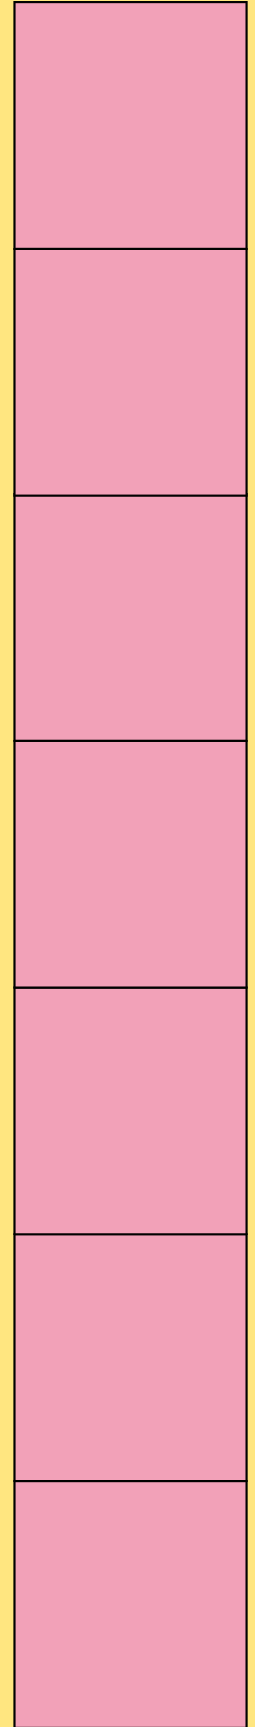

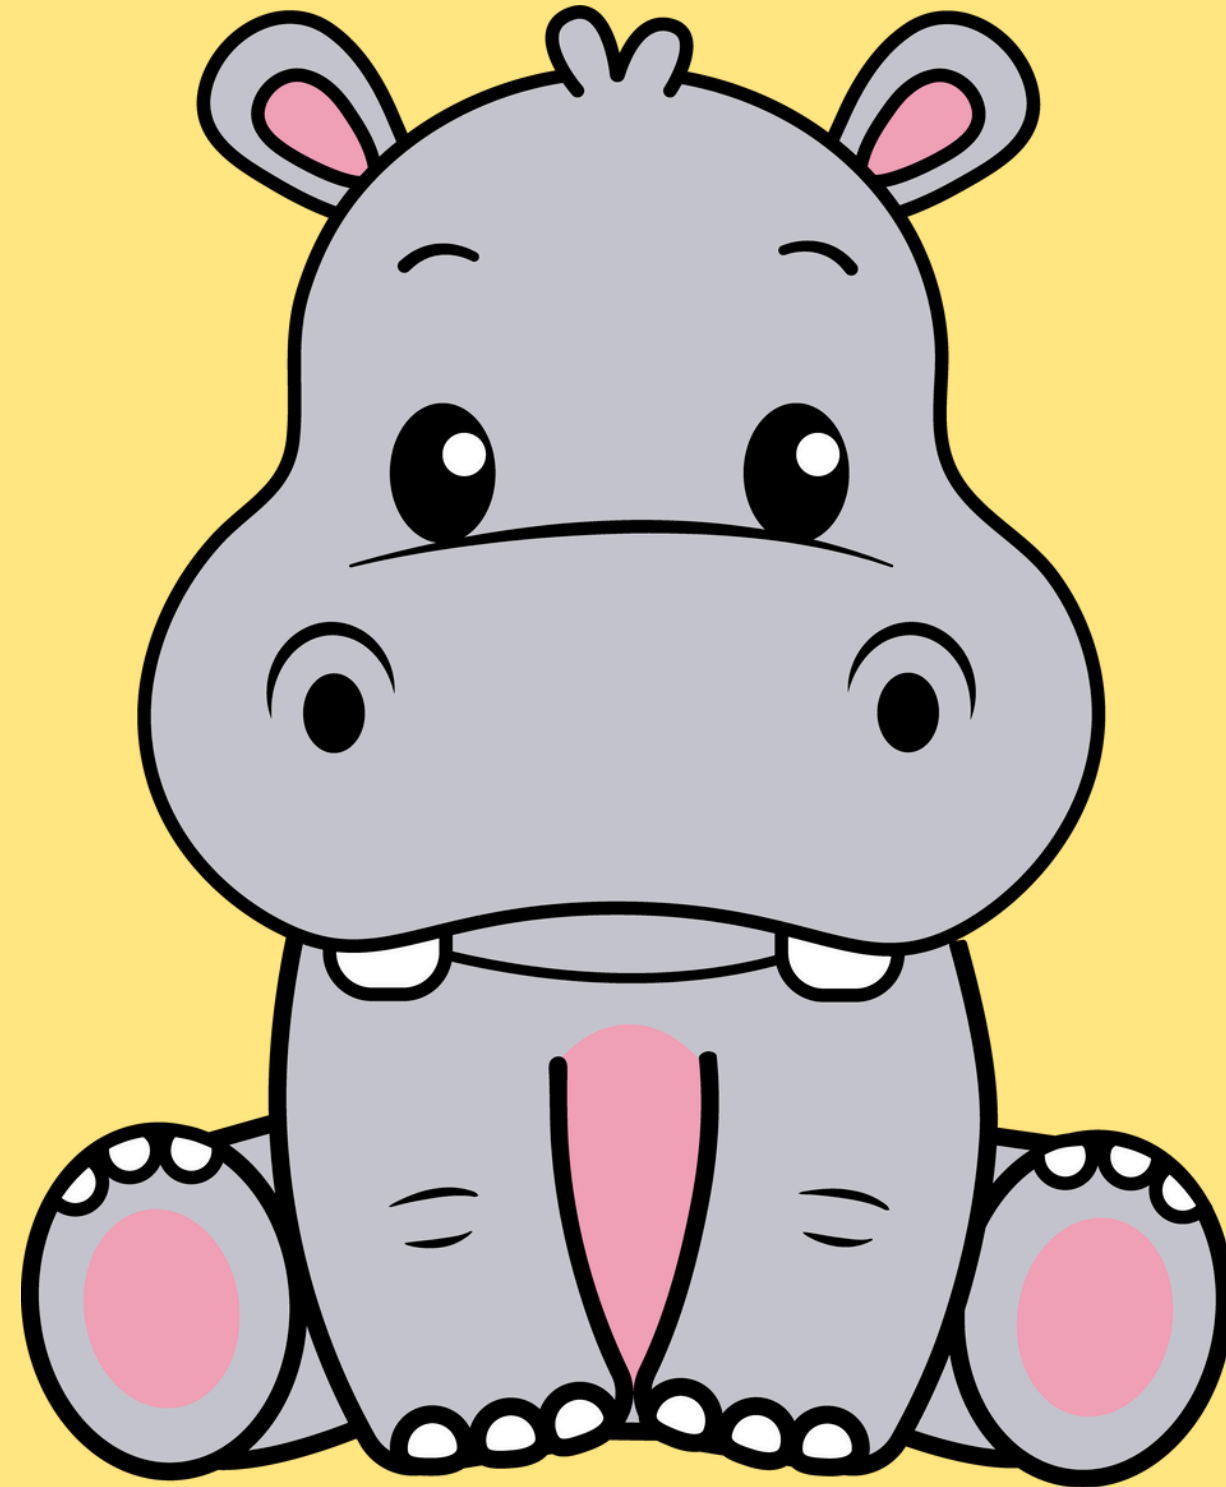

**The panda is 3
blocks wide.**

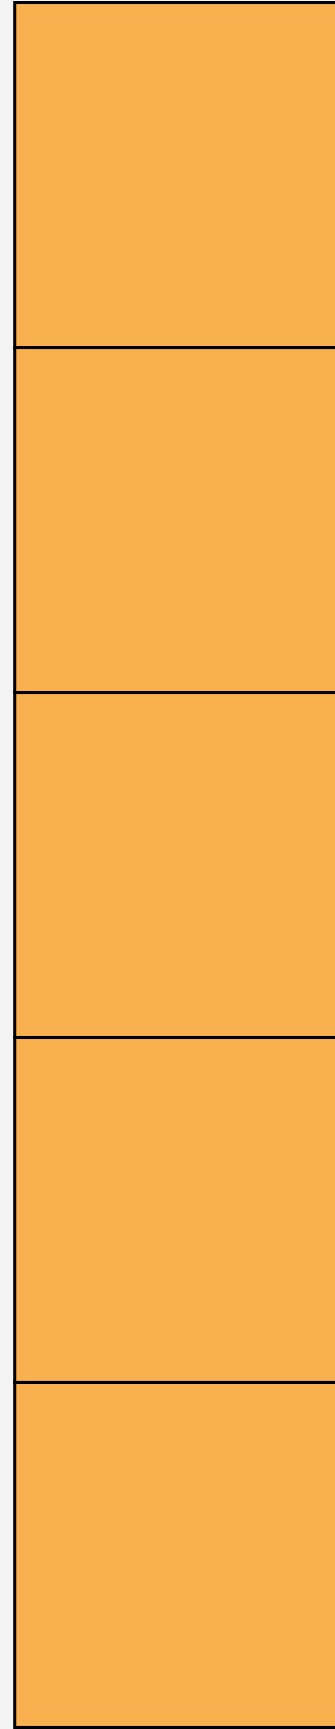

**How tall
is the
hippo?**

**The
hippo is 6
blocks
tall.**

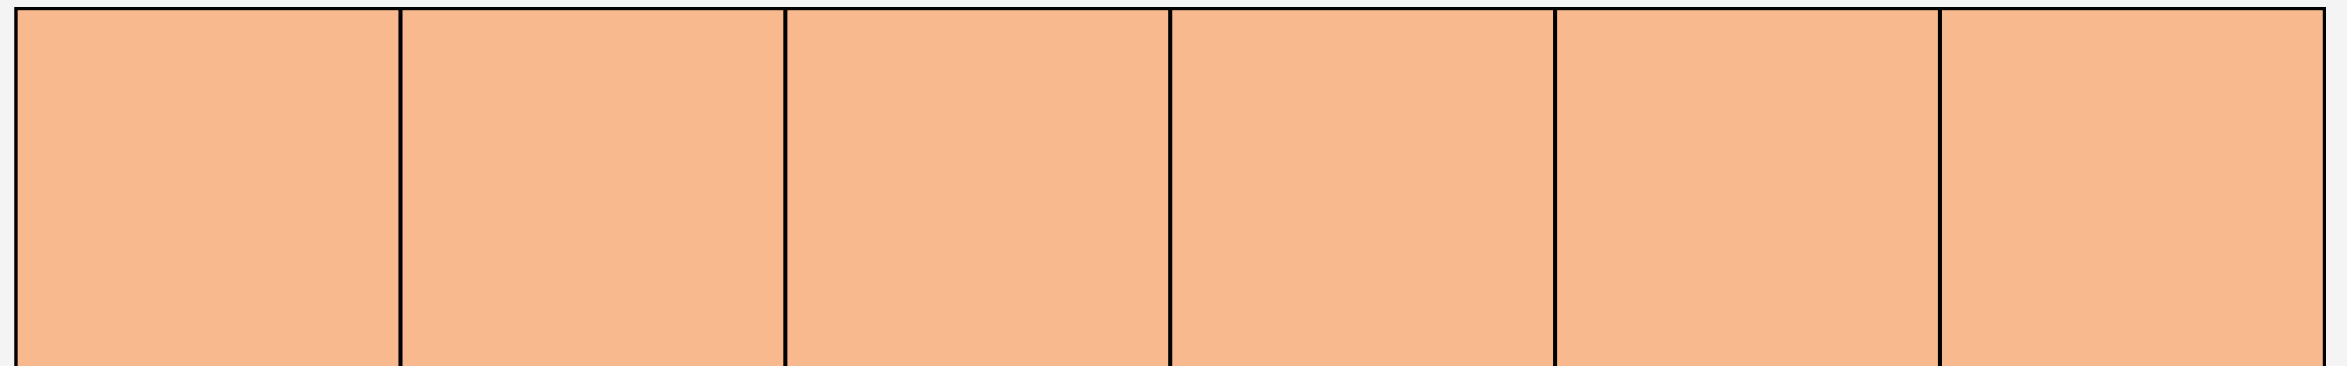

**How tall is
the tiger?**

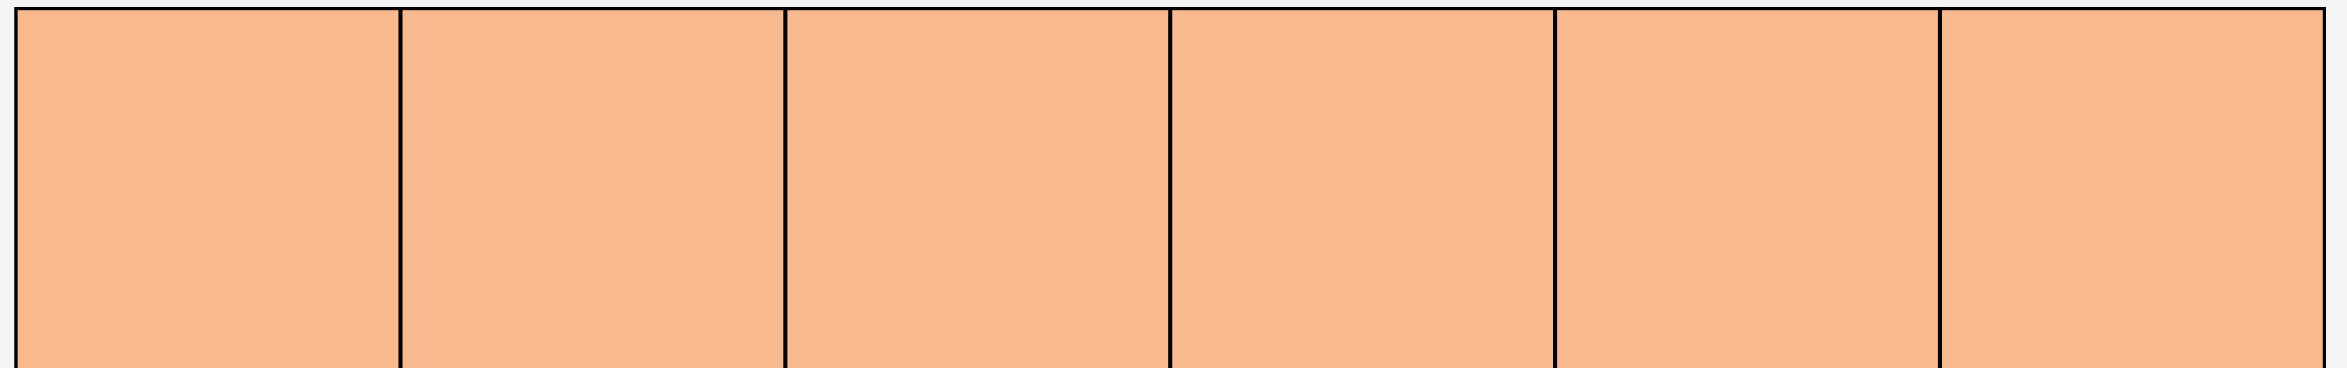

**The tiger is
4 blocks
tall.**

**How wide is
the monkey?**

**The monkey is
3 blocks wide.**

Is it Heavy or Light?

Game Presentation

Instructions:

Today we're going to learn about heavy and light. Let's find out which things are heavy and which are light!

Let us look at these two things. Which one is heavy? Which one is light?

A

feather

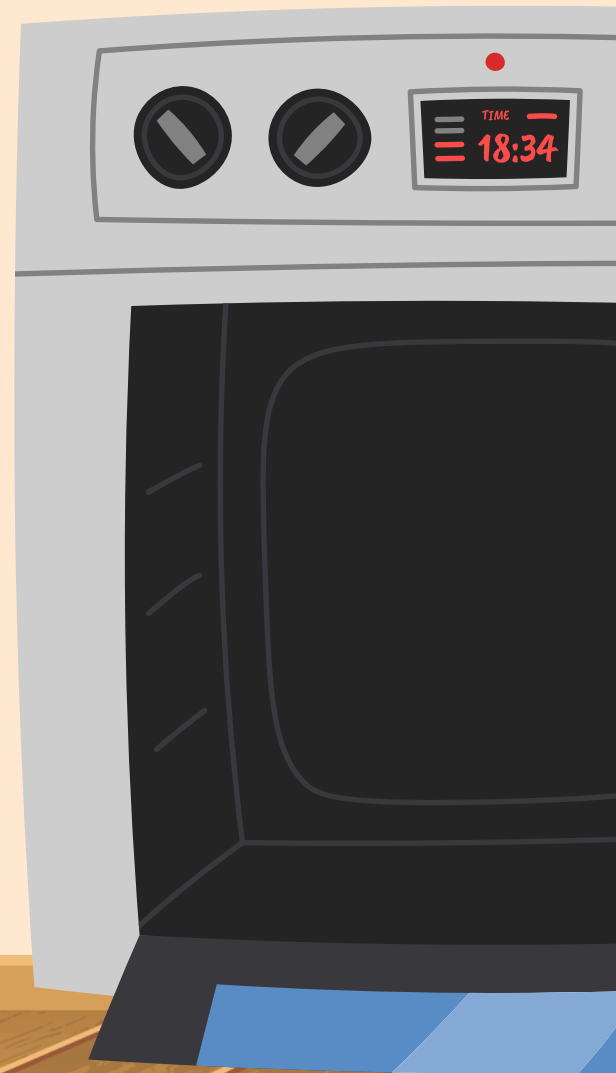

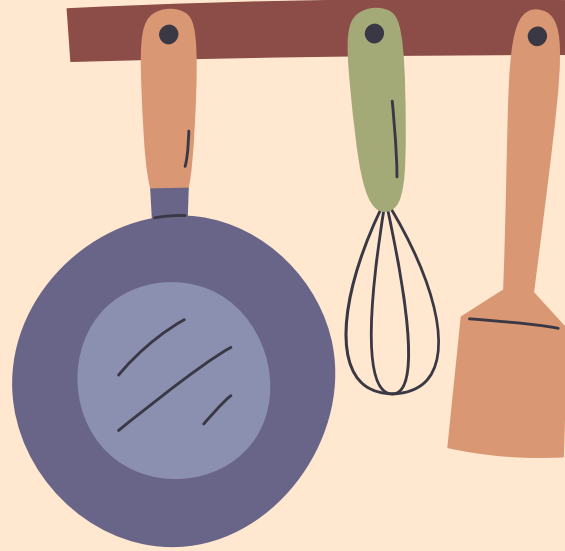

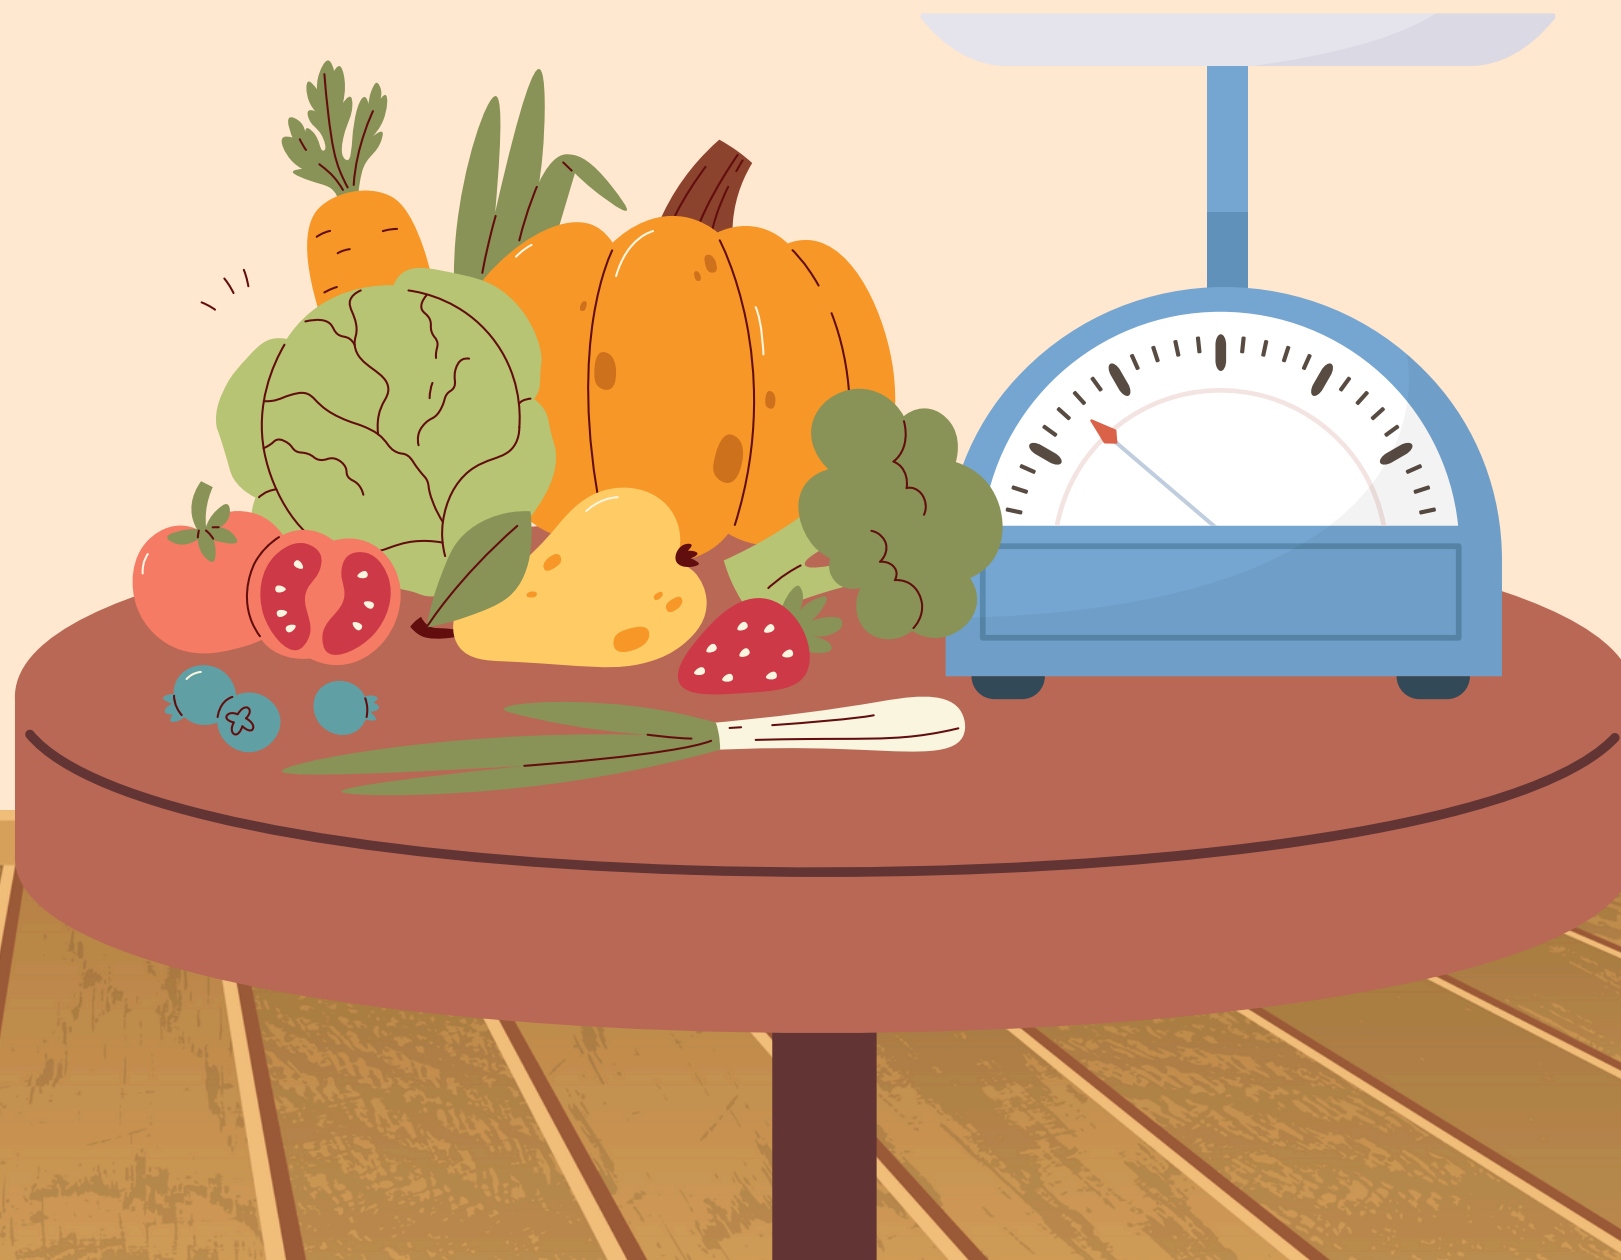

B

rock

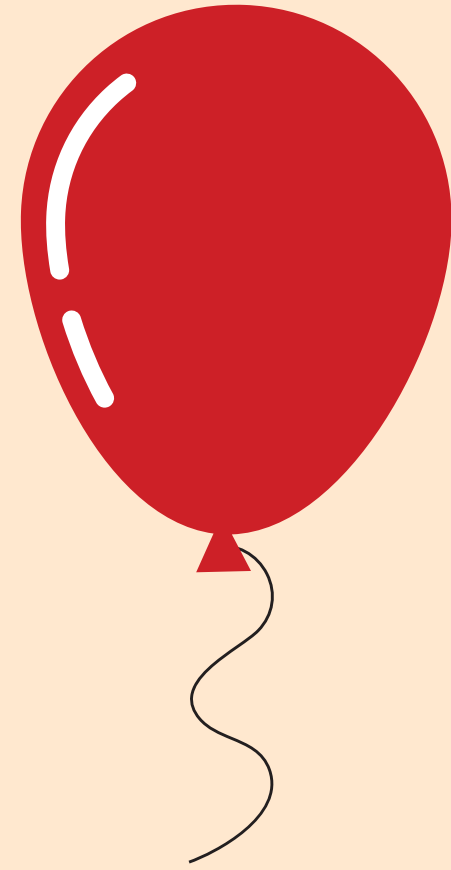

What is Mass?

Mass tells us how heavy or light something is. Mass is just a word we use to tell how heavy or light something is. If it's heavy, it's hard to lift. If it's light, it's easy to lift

Let's play a game! I'll show you some objects. You tell me if they should go in the Heavy box or the Light box.

balloon

Heavy

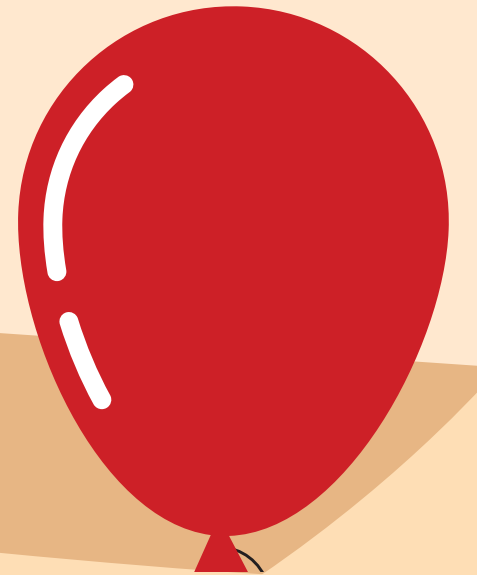

Light

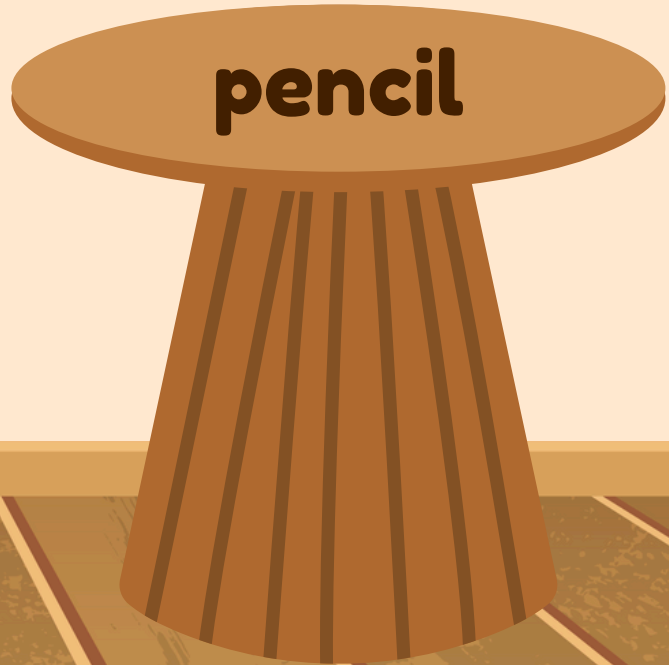

chair

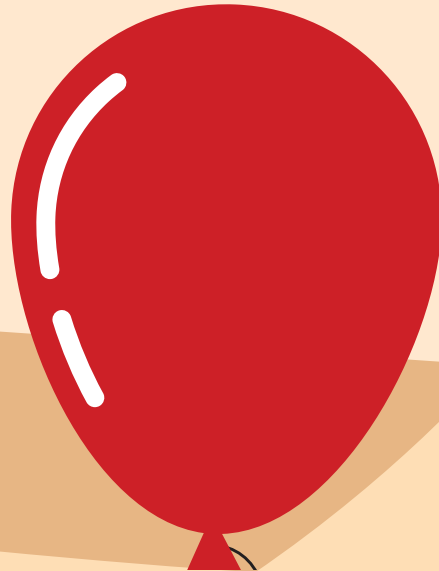

Heavy

Light

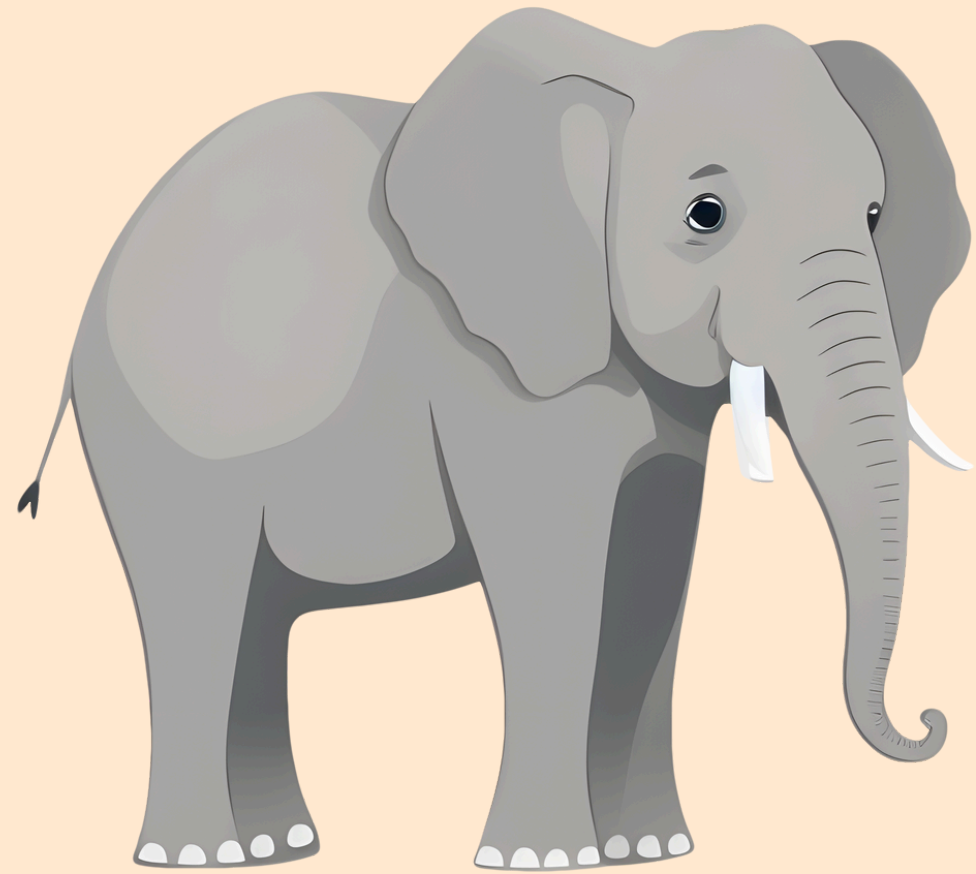

pencil

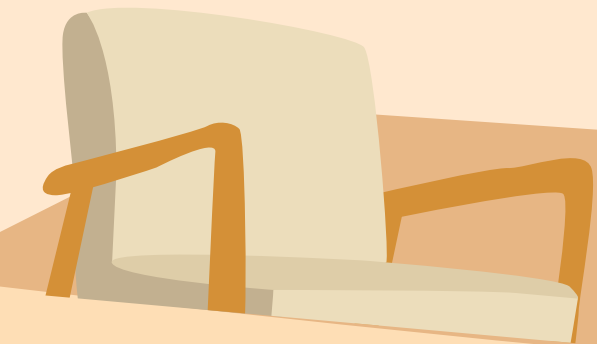

Heavy

Light

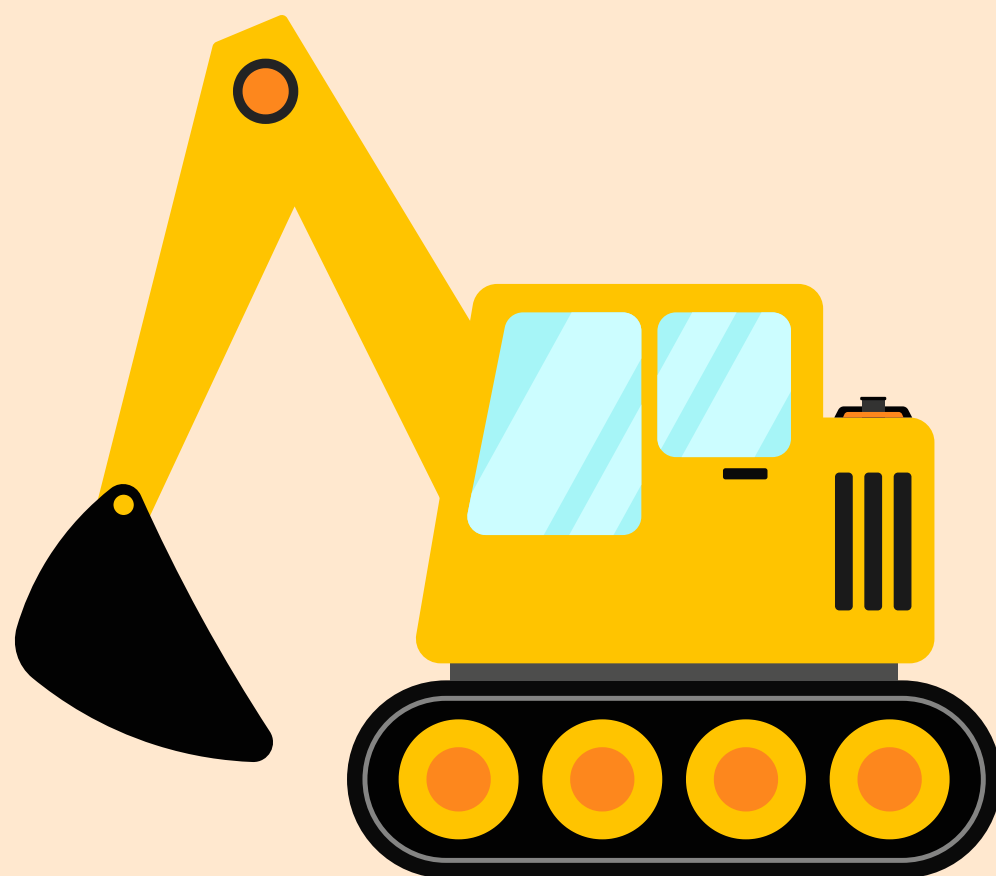

elephant

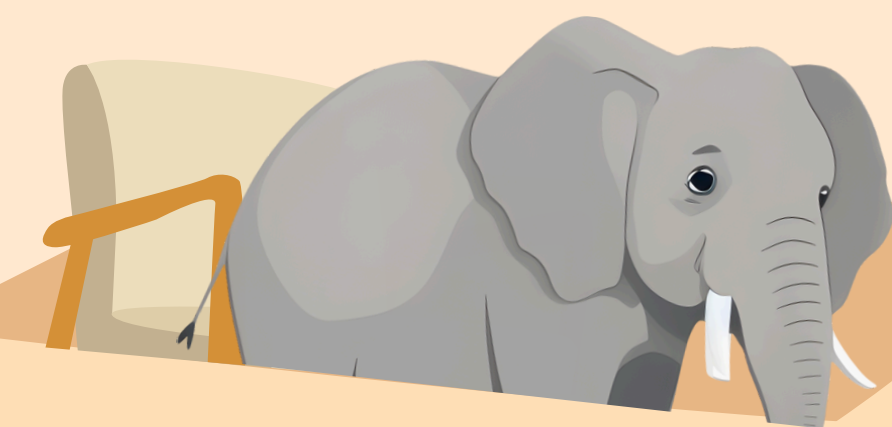

Heavy

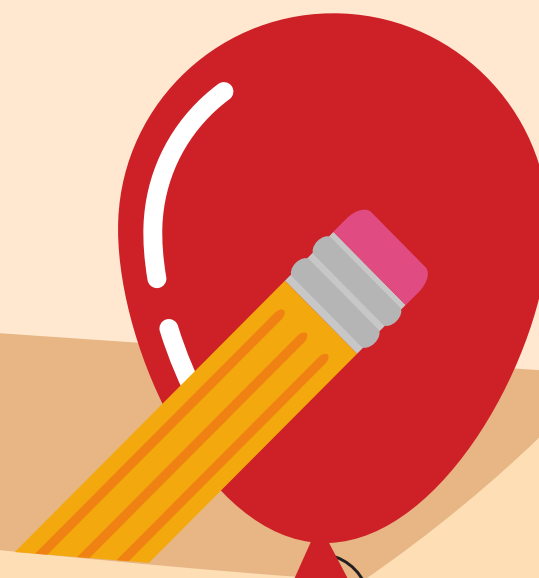

Light

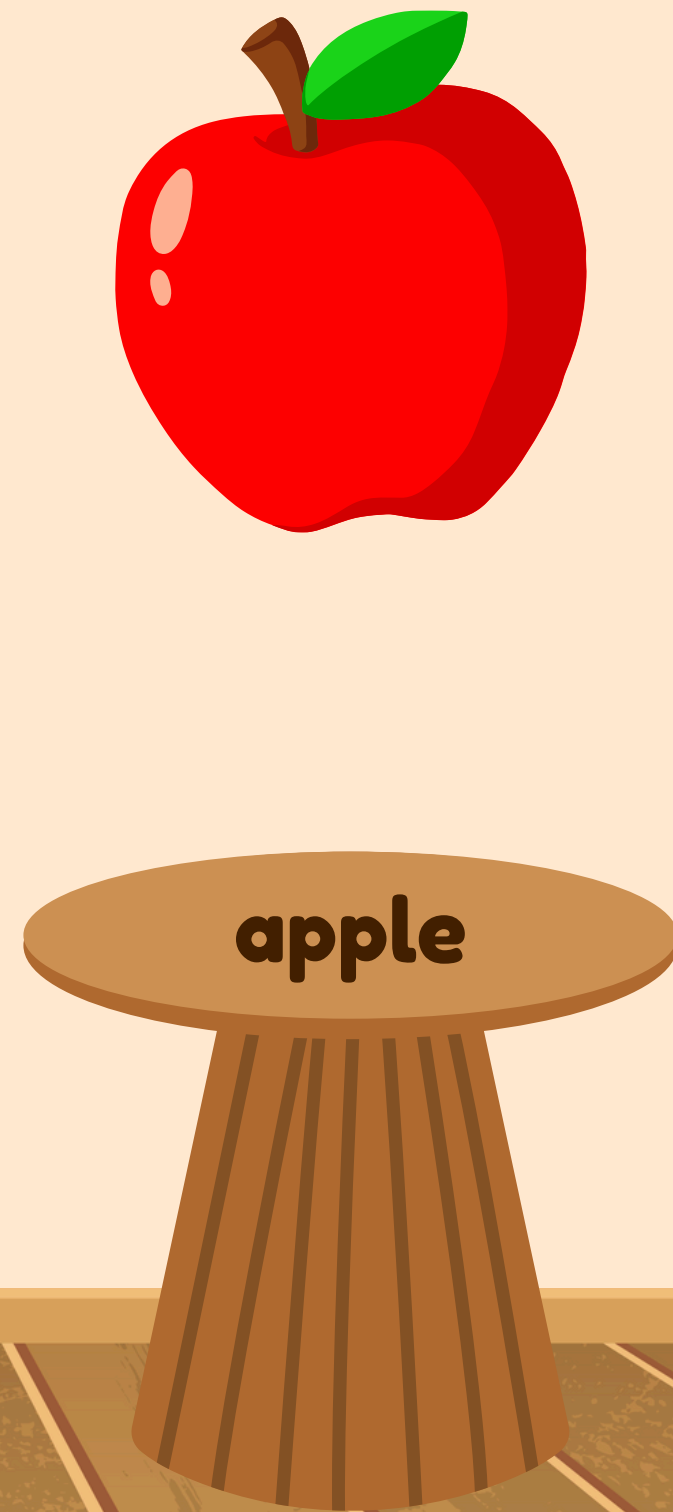

digger

Heavy

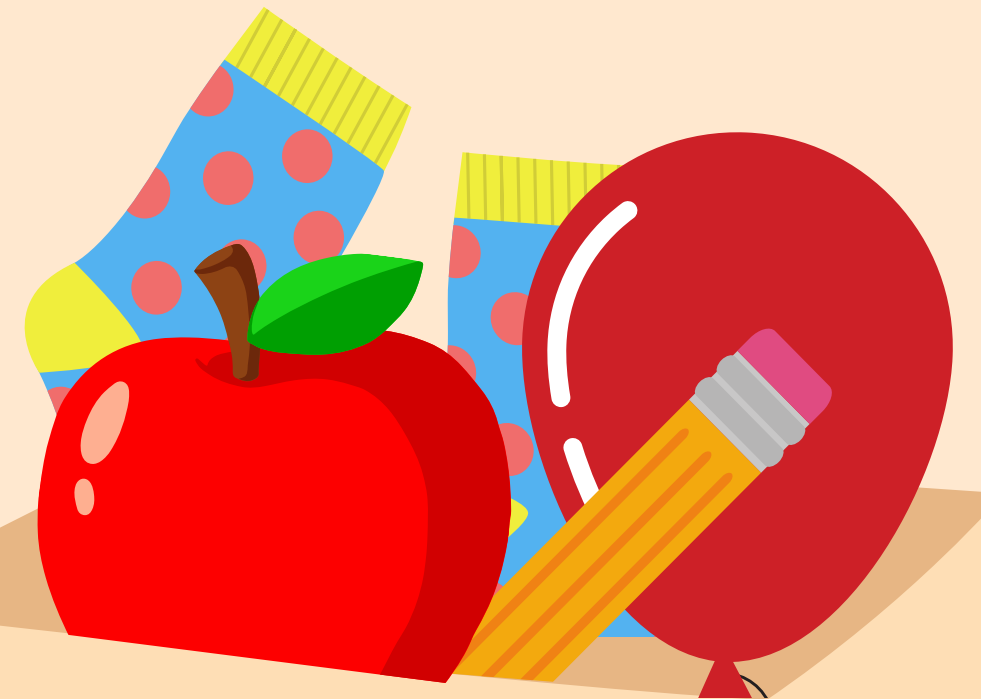

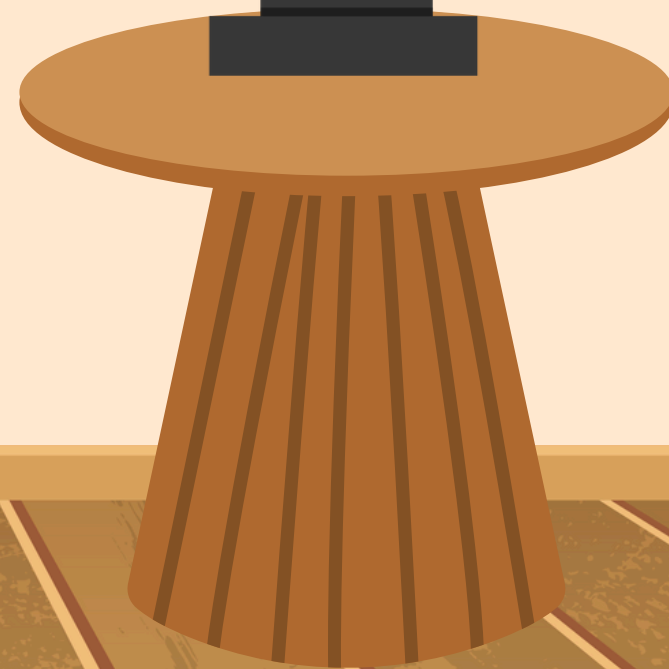

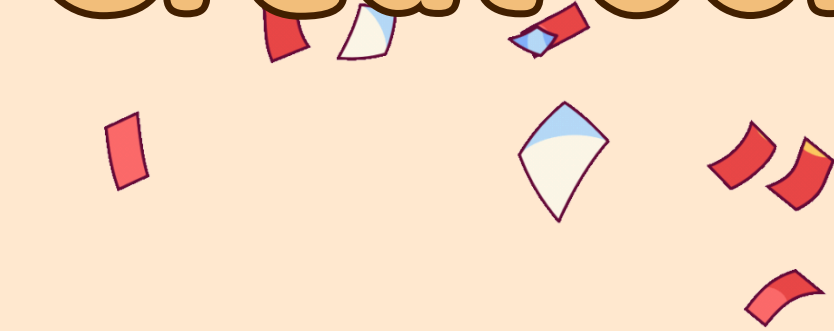

Light

Great Job!

Heavy

Light

That was so amazing! You were able to identify which of the things are light and heavy. You are experts!

Summary:

Always remember that Mass tells us if something is heavy or light. Heavy things are hard to lift, while light things are easy to lift.

Thank you!

See you next time

THANK
YOU
