

UNDERSTANDING MONEY

Grade 3

WHAT IS MONEY?

Understanding Money, Money is what we use to buy things we need or want, like food, toys, and clothes. We can earn money by working, and we spend money to get what we need.

LEARN MORE

WHY MONEY MATTERS

Money plays a central role in our daily lives. It's a tool for survival, growth, and opportunity. Understanding how money works helps us make better choices.

HOW DO YOU EARN MONEY?

Chores: Doing tasks around the house like cleaning your room or helping with dishes.

Allowance: Some parents give kids an allowance for doing chores.

Small jobs: As you grow, you can earn money by doing small jobs for neighbors,

Selling Handmade Crafts: Bracelets, drawings, or baked goods can be sold

THE IMPORTANCE OF SAVING

Why Should We Save? Saving means keeping part of your money for later.

Save for the future

It helps us buy bigger things like a bike or a game.

Emergency savings

It can also help if something unexpected happens.

HOW TO SAVE MONEY?

PIGGY BANK

Start with small amounts and put money in your piggy bank or a savings jar.

BANK ACCOUNT

You can open a savings account in a bank and watch your money grow with interest.

BUDGETING

MAKING YOUR MONEY LAST

What is a Budget? A budget is a plan for how to spend your money.

Spend wisely

Decide how much to spend on things you need (like food) and things you want (like toys).

Save some

Always try to save a little bit each time you get money.

Needs are things you must have, like food, clothing, and school supplies.

NEEDS VS WANTS

Wants are things you like to have but don't really need, like candy or a new game.

WHAT'S THE DIFFERENCE?

It's important to know the difference to spend wisely!

The background features a series of light green diagonal stripes. Scattered around the central text are various illustrations of money: a stack of blue banknotes in the top left, several gold and silver coins in the top right, a few more gold coins on the left, and stacks of brown and gold coins in the bottom right. There are also some blue banknotes on the right side.

GROWING YOUR WEALTH

Investing turns savings into assets. Whether in stocks, property, or business, it helps grow money over time.

BEYOND COINS AND BILLS

Modern money includes cards, apps, and cryptocurrencies. Digital finance makes transactions faster—but requires smart, safe usage.

FINANCIAL HABITS THAT MATTER

Success with money isn't just about how much you have—it's how you manage it. Discipline, knowledge, and goals create long-term stability.

GIVING AND SHARING

Why Should We Share? Sometimes, we use our money to help others.

Charity is a wonderful way to share by giving money to help those in need, while gift-giving allows you to use money to buy thoughtful presents for family and friends.

It feels good to help others with what we have!

THE VALUE OF HARD WORK

Why Hard Work Matters Money doesn't just
appear – it comes from hard work!

- When you work hard, you earn money.
- When you work hard, you earn money.
- Learning the value of work helps you appreciate money and use it wisely.

CONCLUSION

Building a Strong Financial Future

Start Early, Build Smart! Learning about money early helps you make better decisions later. Save money for the future, spend wisely by making smart purchasing choices, and work hard to earn money while appreciating its value.

Let's understand -

TIME

WHAT IS TIME?

Time is a tool that helps us keep track of when things happen or measure how long something takes.

We use a watch or clock to keep track of time, such as the time school starts, lunch times and bed time. We use calendars to keep track of days, months and years. It helps us stay organised and allows us to plan special events.

INTRODUCTION TO CLOCKS

Analog Clocks: Feature hour and minute hands on a numbered dial.

Digital Clocks: Display time numerically, showing hours and minutes separated by a colon.

THE HOUR HAND

THE SHORT ONE

- It tells you the hour.
- It moves slowly from one number to the next.
- The Rule: It is always the number it has just passed.

Example:

If the short hand is just past the 8, it is 8 o'clock.

THE MINUTE HAND

THE LONG ONE

- It tells you the minutes past the hour.
- It moves quickly around the clock.
- The Secret: Each number represents 5 minutes.

What's the time?

It's nine o'clock

When the minute hand
is pointing at 12,
it shows a full hour,
and we call it "o'clock".

When the minute hand is on the right side of the clock, we say it is “past”.

You can say:
it's a quarter past ...
or it's fifteen past ...

When the minute hand is
on the left side
of the clock,
we say it is “to”.

You can say:
it's twenty to ..

What's the time?

It's ...

What's the
time?

It's half past two.

It's 2:30.

What's the time?

It's ...

What's the
time?

It's a quarter to
six.

It's 5:45

What's the
time?

It's ten to seven

It's 6:50

What's the time?

It's ...

Look at the clock
in the room.
What's the time
now?

It's ...

THANK
YOU
